## COTTON HOLIDAY ABANDONED

### Huge Fire Works Display Scheduled During Fair Week

Best Array of Elaborate Numbers Ever Seen in Arkansas

#### SIX PERFORMANCES

Program to Be Held Each Evening During Week of September 21-26

Spectators at the Southwest Arkansas Fair this year are promised a superb evening entertainment program, "The Festival of Fire," according to the detailed outline of head-line features which was announced in final form Thursday by President Terrell Cornelius.

The schedule of big set pieces which will be fired in connection with each evening's production and which is said to comprise one of the largest arrays of such elaborate numbers ever witnessed in the state, includes the following:

"Our Navy," a big marine battle feature, showing a submarine attack on the American coast and the ensuing battle between American ships and the enemy. The entire presentation, from the warships themselves to the bombardment and crash of the battle, is carried out exclusively by means of fireworks effects.

"Jungle Land," a scenic spectacle covering a field 300 feet long and depicting big game hunters in the African jungle, with lions, tigers, bears and giraffes in their native haunts.

"Nagata Falls," in which the falls will be more than fifty feet long and thirty feet wide, and the water will be in silvery, sparkling fire.

The famous "magic jubilee" fountain, an exact reproduction of the Fountain of Light created last year for Light's Golden Jubilee and the Edison Celebration.

A Boys and Girls' 4-H Club emblem, painted in fireworks, with a boys and girls' 4-H club member standing at either side. This will be one of the largest and most colorful set pieces ever seen at the fair.

A series of comedy action pieces, including "Jockey," the acrobatic monkey, and the "Fighting Roosters," carried out in action fireworks.

The "Aurora Borealis," a combination of brilliant colored lighting effects, shooting stars, and bombardment.

"Pyro Whoopie," a joint presentation of all the newest things in modern fireworks, both in noise and color.

"These are just a few of the features which will be seen at each evening's program at the fair," Mr. Cornelius said in announcing the list of events Thursday. "We promise the public a fireworks show such as has before been seen in this part of the state. It is more costly, more elaborate, more unusual than anything we have attempted in previous years, and we expect a record-breaking attendance."

### Community Fair Is Great Success

Congressman Tilman B. Parks Talks to Farmers in Afternoon

The sixth annual community fair, under the leadership of H. P. Dampf, vocational agricultural instructor of the Bodewig High School, was the most successful fair to be held at this place according to those who have been regular attendants.

Community exhibits were the outstanding features. Falcon was winner of the first place; Union community second, and Lone Pine third.

Mr. George Ware of the Hope Fruit and Truck Branch Experiment Station, Mr. Leonard and Miss McNeill, county agents of Nevada county, were the judges.

In the afternoon, Lynn Smith, county agent, and Congressman Tilman B. Parks of Camden, addressed the crowd on present agricultural conditions.

Bodewig defeated Willisville in a baseball game during the afternoon.

Duffield Throws Helmet Onto Political Gridiron

SANTA MONICA, Cal.—(AP)—Marshall Duffield, star Trojan quarterback of 1929-30, although only 20 years old, is a candidate for mayor of Santa Monica.

He will have reached his majority by the time the election is held in December. He is president of a building company.

### Policeman Shot at School Meet

School Director Said by Officials to Have Fired Bullet

SCRANTON, Pa.—(AP)—Patrolman William Novak of Dixon City was shot and killed Thursday during a meeting of the school board in the high school of Dixon City, near here. Police said Frank Gutnecht, a school director fired the shot.

What caused the shooting was undetermined but a bitter factional strife has been brewing in the city for several months.

### Gandhi In Protest of Representation

Claims Committeemen Did Not Represent India at Hearing

LONDON, England.—(AP)—Mahatma Gandhi protested against representation on the Federal Structure Committee of the Indian Roundtable Conference at its session Thursday, declaring that the members of the committee were not representatives of the Indian nation but of the government.

He said that the sessions of the committee seemed interminable and were getting nowhere, instead of doing something to bring suffrage to all Indian classes.

The members spent their entire time in debate, Gandhi said.

### Seeks Adjustment On Income Taxes

Tennessee Leader Favors Those Earning More Pay Most

WASHINGTON.—(AP)—Representative Byrns of Tennessee, a democrat house leader Thursday said he favored legislation is the next congress making those in higher income tax brackets "pay their just proportion of the nation's taxes." He is the ranking democrat on the house appropriations committee.

He said he opposed the general sales tax proposed by Senator Reid of Pennsylvania.

### Hot, Dry Weather Benefit To Cotton

Weather Bureau Compiles Report on Arkansas Condition

LITTLE ROCK.—(AP)—The hot, dry weather of the past week has been beneficial to cotton, with bolls opening nicely in the southern and central sections, says the weekly report on Arkansas crop conditions issued by the Little Rock Weather Bureau.

Fields in lowlands where heavy rains occurred did not do so well, the report said. Except in two south-eastern counties, boll weevil damage was reported slight.

"Temperatures were high and sunshine abundant during the entire week, maximum temperatures of 90 to 95 degrees being reported nearly every day. The weekly means were about six degrees above normal. Light showers were reported at a number of stations in northeastern portions and at a few stations in southern and western portions on the 13th, fair weather prevailing elsewhere during the week."

"The hot, dry weather was very favorable for cotton. Bolls are opening nicely in southern and central portions, elsewhere slowly. Picking and ginning are progressing nicely in most southern portions, but little progress has been made in central portions and in some extreme northern portions, none has been picked."

"Fields in the lowlands where heavy rains occurred are very green and poorly fruited, but in other portions of the lowlands and in the highlands the leaves are turning and the stalks are heavily fruited. Damage by the weevil is slight, except in two southeastern counties."

"Early corn is ready to gather in most localities and late corn is growing rapidly. Much hay and feed crops have been put up. Potatoes, sweet potatoes, tomatoes and all kinds of truck and fruit are abundant. The rice harvest has begun in the southern portion and will begin in the northern next week."

### Rev. Harman Goes To Texas Church

Hope Pastor Enters T. C. U.—Will Preach at Terrell, Texas

The Rev. W. P. Harman for the last two years pastor of First Christian church, left Thursday for Fort Worth, Tex., where he will enter Texas Christian University.

The Rev. Mr. Harman will complete his work for the degree of bachelor of divinity at T. C. U. While in school at Fort Worth he will serve as pastor of the Christian church at Terrell, Tex.

No successor for the Rev. Mr. Harman has been chosen as yet by the congregation. It was said Thursday.

### Capacity Audience Sees 1931 Style Show at Saenger

44 Models Presented at Third Annual Revue by Local Merchants

#### AWARDS ARE MADE

Montgomery Ward, Ladies Specialty Shop, Hope Furniture Co., Win

A capacity audience at the Saenger theater saw the 1931 Style Show of Hope merchants revealed at the buying public of Southwest Arkansas Wednesday night.

Forty-four living models—Hope girls, men and children—presented an interesting tableau on the big stage at 9 o'clock, between the two regular night performances on the screen.

Meantime, a window-display contest had been under way among the 18 co-operating merchants. Dindows that had been unveiled all day Wednesday were revealed an hour before show-time.

Window Prizes First prize went to Montgomery Ward & Co., \$10; second prize to the Ladies Specialty Shop, \$5; and third place to Hope Furniture company, \$3. Honorable mention was given to Roy Anderson & Co. for a novel illustration of an insurance firm's window.

On the stage at the Saenger at 9 o'clock the Style Show was presented as the result of two weeks' work by the sponsoring organization, the Business & Professional Women's club, in co-operation with Manager Elliott Johnson of the theater, and The Star.

The show was in the form of a tableau of style models parading before out-of-town buyers. The buyers were played by Mrs. Margaret Simms McDonald, Little Rock; Miss Louvena Ruggles and Talbot Field, of Hope; and Francis Farris, of El Dorado.

Interpreted between showing of styles were novelty dances by little Miss Mary Cornelia Holloway and Joy Ramsey, and Luther Holloman, Jr. Stores and their models were as follows:

Patterson's Department Store: Women, Elizabeth Arnest, Hattie Ann Field, Frances White, Miriam Carlton; children, Frances Snyder and Fern Gorman; men, John Green, Nellie Bacon, Albert Lemley, Leslie Coffman.

Ladies Specialty Shop: Sybil Smith, Charlene Landers, Mary Cook, Margaret Taylor.

Gorham & Gosnell: Jimmy Cook, Norman Moore, Bob Young, William Coker.

Montgomery Ward & Co.: Women, Nell Helms, Opal Garner, Lena Henry, Margaret Powell; children, Betty Robins, Tommy Bacon; men, Thomas Massey, Thomas Ridgill, Clyde Phillips, Frank Lowthorp.

J. C. Penney company: Women, Marcel Norton, Evelyn Johnson, Mrs. Elliott Johnson, Alice Mae Waddle; children, George Ware, Jr., June Monts, Joe White, Martha Ann Alexander; men, Hoyt Rider, Wright Massey, Hoyt Andres, Aubrey Wood, L. C. Burr & Son, Helen Beets, Annie Sue Andres, Vera VanSickle, Ida Mae Cannon.

John P. Cox Drug company: Mildred Jones.

Other co-operatives: Hope Coca Cola Bottling company, City Bakery, Hope Hardware company, Hope Building Material company, Middlebrooks Grocery, Roy Anderson & Co., Hope Furniture company, Marinello Beauty Shop, Broadway Service Station, Webb's Newstand, Capital Hotel.

### Admits Plotting Death of Husband

Says Killing Was Planned With Youth Jealous of Victim

HACKENSACK, N. J.—(AP)—Mrs. Olga Ziegler, a tall brunette of 38, confessed Wednesday night, police announced, that with George Flannard, 21, she plotted the ambush slaying Tuesday night of her husband, Ott Ziegler, 40-year-old manufacturer.

"If you don't kill him, I'll have to do it," authorities quoted her as warning Flannard, whose jealousy he been aroused they said, of Ziegler's attentions to Flannard's former sweetheart, Ruth Herling.

Flannard, a former employee of Ziegler's, had confessed earlier police said, that he had fired the six shots that killed the silk manufacturer near his home Tuesday night.

Mrs. Ziegler and Flannard were committed to jail without bail on murder charges. Special Prosecutor George J. Losche said he would present the case to the grand jury as sign as possible.

In preliminary questioning police said Mrs. Ziegler told them she had learned last Friday her husband planned to accompany Miss Herling on a trip to Canada.

"I could not tolerate raising my children in such a dreadful atmosphere," police quoted Mrs. Ziegler as saying.

### Royal Steeds Shy When Bands Play

Change in Music Causes Steeds to Become Terrorized

MADRID.—(AP)—Army officers who drew for mounts horses which formerly were used for King Alfonso's palace escort, have found the steeds almost unmanageable on parade.

They explain that the king's horses were accustomed to the "royal march" and do not like the "Hymn of Riego," a less martial tune, which is used as official song of the republic.

### Flees as Austrian Revolt Fails

His attempts to seize power in Austria, an apparent failure, Dr. Walter Pfrimmer (above), Heimwehr leader, was reported to be a fugitive from justice. After he had proclaimed himself dictator of Austria, an attempt by his followers to seize the public buildings in the Province of Styria was defeated. One man was killed and seven wounded in street fighting which accompanied the shortlived revolt.

#### Court Will Sell Nashville Orchard

Bert Johnson Holdings to Go Under Hammer October 9th

NASHVILLE, Ark.—(AP)—The Bert Johnson peach orchard, one of the largest in the world, will be sold October 9 to satisfy a mortgage foreclosure.

The orchard produced a heavy crop this season, but because of low prices was not able to pay indebtedness and Chancellor C. E. Johnson granted a petition of the Mississippi Valley Trust company of St. Louis, asking for foreclosure of a mortgage. There is an indebtedness of approximately \$225,000 against the orchard.

### Cotton Suits For College of Miners

Jerseys, Socks and Sweat Shirts to Be Made From Cotton

EL PASO, Tex.—(AP)—College of Mines athletes will wear uniforms of cotton, rather than wool, this year. Coach Mack Saxon said jerseys, socks and sweat shirts would be of cotton in cooperation with movements to increase consumption of manufactured cotton, and thereby, of the raw product.

### Strawberry Expert Visits This Section

Farmers Urged to Consider Planting for Car Lot Shipments

B. J. Nuckols, with the American Refrigerator Transit Company, with headquarters in Little Rock and District Horticulturist of the Missouri Pacific Railway Company, is in Hope for a few days in the interest of increasing present strawberry acreage so as to enable farmers to secure a better net price for their crop by shipping in car lot shipments.

A meeting of all interested growers will be announced within the next week or ten days. At this meeting plans of increasing the acreage will be discussed and figures will be presented to show what other sections are doing since the strawberry acreage has been increased.

Several business firms in Hope are interested in the movement and any farmer who is interested may secure additional information by talking with Monts Seed Company, C. S. Lowthorp or A. D. Middlebrooks.

### Sea Fishing Possibility in Southwestern State

CHEROKEE, Okla.—(AP)—Salt water fishing in the heart of Oklahoma. It sounds foolish, yet state game department officials say it will come to pass if the federal government impounds the proposed artificial lake on the prairie near here.

Because the lake would cover the Great Salt Plains, officials assert fresh water fish could not thrive in it and only the salt water variety could be propagated.

### Grade Schools to Have New Division Lines This Year

L. & A. Tracks, N. Hervey, and Mo. Pac. Lines to Divide Territories

#### TO ENROLL FRIDAY

Grade Students Will Register at Respective Buildings During Day

The registration of all elementary school students will begin at 9 o'clock Friday morning, Miss Beryl Henry, city superintendent, announced Thursday.

The fall term opens Monday, September 21. Senior and junior high school students have been registering all week at the city hall.

Elementary students will register Friday at their respective schools, Miss Henry said.

New Division Lines Special attention is called to the redistricting of students to the various ward schools, which was made necessary by the abandonment of the old Garland building in Ward Two. The new division lines are as follows:

The L. & A. tracks will be the division line between the Brookwood and Paisley (old Junior High School building) grade schools.

North Hervey street will divide the territories of the Paisley and Oglesby schools.

The Missouri Pacific tracks will be the division line between the Oglesby and Brookwood schools.

### Cotton Center Is Likely For Camden

River Packet to Offer Lower Rate for Trip to New Orleans

CAMDEN.—Taking full advantage of the low cotton rate to New Orleans aboard the Steamer Ouachita, Camden cotton buyers and the Chamber of Commerce here are making plans to center of South Arkansas.

A rate of \$1.50 a bale has been offered by Captain L. V. Cooley on his river packet. He has recently had constructed a large steel barge to handle the cotton on the river.

The \$1.50 bale rate from Camden to New Orleans represents a saving of \$2 over the rail rate which is \$3.80 from Camden, plus compress and other charges. In addition to the river rates there is an additional charge of 2 cents for storage and handling at the compress here. The cotton will be brought to the compress and there placed on the steamer and barge by means of a long chute.

Years ago cotton was loaded on river steamers direct from the compress which is situated on the bank above the river. The chute had rotted away but a new one will be built immediately.

An aggressive campaign will be launched for the cotton trade as local cotton buyers will offer 25 to 40 points more for cotton here as a result of the \$2 saving in freight rates.

The cotton will be stored at the compress until the boat arrives.

Years ago Camden was the biggest cotton center in South Arkansas and over 50,000 bales were handled in a season here. As many as 16 river steamers have docked here at one time during the cotton season. Now that barge lines and fast river packet service have been inaugurated Camden again will make a bid for the cotton trade.

Camden cotton men will be able to offer the best prices for cotton in the state because of the saving in freight to New Orleans markets. This saving will be applied to the price and the farmers will benefit in increased prices for their product.

### Nature Removes Threat of Pecan Crop Surplus

JACKSON, Miss.—(AP)—One group of farmers, at least, is no longer threatened with a surplus of its product.

Advance predictions of the largest pecan crop in the nation's history have collapsed. The case-beaver in Texas, Oklahoma and Louisiana; the phylloxera in Louisiana; dry weather in Georgia, and improper pollination in many sections of the southwest have combined to reduce the crop below even that of last year, according to F. R. Wilcox of Jackson, general manager of the National Pecan Marketing association.

### Long Will Cancel Louisiana Action; Texas Is Enraged

PROVIDENCE, R. I.—(AP)—Harry Volpe, bootlegger and informer for federal agents in this city and formerly in Detroit and vicinity, was found shot to death in his automobile on a residential street here Thursday.

HARRISBURG, Penn.—(AP)—Governor Pinchot said Thursday he would call an extra session of the legislature to consider unemployment. Time for the call is unannounced.

ATLANTIC CITY.—(AP)—The American Bar Association Thursday formally went on record as favoring a repeal of the prohibition amendment. The matter was decided by a referendum vote conducted by the executive committee showing some 13 thousand for repeal and some six thousand opposed.

COLUMBIA, S. C.—(AP)—The state senate Thursday approved on the final reading a bill to prohibit cotton growing in 1932 and ordered it sent to the house for consideration. The vote was 21 to 13.

### Long Will Cancel Louisiana Action; Texas Is Enraged

NEW ORLEANS.—(AP)—After a ruling a statement early Thursday that he would repeal by proclamation within a few days the Louisiana cotton prohibition act, Governor Long later changed his mind and said he had decided to stand fast in the event that other states might wish to pass cotton relief measures.

The governor said his first statement to the New Orleans press was due to a misunderstanding.

NEW ORLEANS, La.—(AP)—Governor Huey P. Long said Thursday he would issue a proclamation within a few days declaring the Louisiana cotton prohibition law "null and void and inoperative" because of the rejection of the plan by the Texas legislature Wednesday.

One-Third, Favored AUSTIN, Tex.—(AP)—The House of representatives Thursday refused to adopt an amendment to the Olsen bill to limit cotton acreage to 25 percent of the cultivated area.

The amendment has been approved by the senate.

The original Olsen bill would limit cotton planting to one-third of the cultivated area.

Long Abandons Fight Huey Long, governor of Louisiana, and United States senator-elect, sang his swan song over his cotton prohibition plan in a radio address Wednesday night from the state capital at Baton Rouge, in which the storm petrel of Louisiana politics repeated his charges of bribery and pressure brought against the Texas legislature to defeat his program for the 14 cotton-producing states.

Early in the week Governor Long set the Lone Star State on fire with his charges against their lawmakers, who had been called in special session at Austin by Governor Ross Sterling.

Hard Language The Texas legislature branded the Louisiana governor a liar, and then adopted a formal resolution of the two houses describing him to be "a consummate liar."

Long charged that the great private cotton house of Anderson, Clayton & Co. had seduced the Texas legislators with wine, women and song—causing the law-makers to oppose complete prohibition of cotton planting, and to favor instead a restriction of planting to one-third or one-fourth of the cultivated land area.

Long said further: "The members of the Texas legislature have been bought like a sack of corn to vote against the cotton prohibition plan, and they have paid them like a slot-machine."

"This statement is not only untrue, but carries the vice of a lie and the venom of a liar. It is an assault by the executive of the state of Louisiana upon the legislative department of the state of Texas and should not be permitted to go unchallenged, but should be met with a proper denial and denunciation."

Long Bill Beaten The tremendous strength of opponents of the Long plan for a complete holiday for cotton in 1932 was demonstrated at Austin Wednesday when the house killed it by a vote of 92 to 38.

The house then placed itself on record as favoring the Olsen bill to allow only one-third of the cultivated area to be planted to cotton in 1932. The Olsen bill carried 95 to 34.

Meanwhile, a farmers' conference at Oklahoma City Wednesday recommended favorable action on Governor W. H. (Alfalfa Bill) Murray's proposal for a special session of the Oklahoma legislature to restrict cotton and wheat acreage to two-thirds of this year's planting in 1932, and only one-half for the two years following.

Crops Chief Farm Income RALEIGH, N. C.—(AP)—Crops grown on North Carolina farms supply 80.5 per cent of the farm income while livestock supplies only 10.5 per cent. The money received from cotton and tobacco constitutes two-thirds or 67 per cent of the total average income.

### Long Will Cancel Louisiana Action; Texas Is Enraged

NEW ORLEANS.—(AP)—After a ruling a statement early Thursday that he would repeal by proclamation within a few days the Louisiana cotton prohibition act, Governor Long later changed his mind and said he had decided to stand fast in the event that other states might wish to pass cotton relief measures.

The governor said his first statement to the New Orleans press was due to a misunderstanding.

NEW ORLEANS, La.—(AP)—Governor Huey P. Long said Thursday he would issue a proclamation within a few days declaring the Louisiana cotton prohibition law "null and void and inoperative" because of the rejection of the plan by the Texas legislature Wednesday.

One-Third, Favored AUSTIN, Tex.—(AP)—The House of representatives Thursday refused to adopt an amendment to the Olsen bill to limit cotton acreage to 25 percent of the cultivated area.

The amendment has been approved by the senate.

The original Olsen bill would limit cotton planting to one-third of the cultivated area.

### Coroner Announces Motive in Drowning

Letters Found Suggesting Method in Which Woman to Die

HAMPTON, Va.—(AP)—Coroner Geo. Vanderslice said Thursday that he believed a motive for the drowning of Mrs. Jenny Graham Kane, wife of Prof. Elisha K. Kane, of the University of Tennessee, had been established.

The coroner referred to letters signed "E. H. D." which suggested that some method be found to get rid of the deceased woman.

The coroner's statement was made in circuit court while opposing the granting of bond to Prof. Kane, who is charged with wife-murder.

The coroner said he believed the name of the woman who wrote the letters is Etta Dodd, and said some of the letters had been destroyed. Other letters now in the coroner's possession suggested European travel and doing unusual things.

# Hope Star

Published every week-day afternoon by Star Publishing Co., Inc.  
217 South Main street, Hope, Ark.

C. W. PALMER, President  
ALICE B. WASHBURN, Editor and Publisher

Entered as second-class matter at the postoffice at Hope, Arkansas under the Act of March 3, 1879.

The newspaper is an institution developed by modern civilization to give the news of the day, to foster commerce and industry, through widely distributed advertisements, and to furnish that check upon government which has ever been able to provide. — Col. R. R. McCormick.

## The Star's Platform

### CITY

Develop the resources of the municipal power plant to develop the economic and social resources of Hope.

Improve city government in 1937, and improved sanitary conditions in the city and business back-wards.

### COUNTY

A county highway program providing for the construction of a certain amount of all-weather road each year, to gradually reduce the dirt-road mileage.

Political and economic support for every scientific agricultural program which offers practical benefits to Hempstead county's great-est industry.

Encourage former organizations, believing that co-operative effort is as practical in the country as it is in town.

### STATE

Continued progress on the state highway program.

Efficient tax reform, and a more efficient government through the budget system of expenditures.

Free Arkansas from the cattle tick.

## A Thought

Man is the measure of all things.—Protagoras.

## Need of a Chance

THE current depression with its attendant unemployment, the Russian experiment in Communism, the international debt situation and the disarmament problem have combined to make our puzzled civilization wonder what may happen in the future. The pessimists predict chaos. The optimists see light.

Whatever the opinion may be it is evident that some of our traditional ideas must be discarded if we are to build a new American social structure, adequate to withstand the battering of the machine age and the onrush of progress.

Our capitalistic economic scheme is criticized, because during a time of depression the common people suffer most. Communists bitterly decry it, capitalists steadfastly defend it and government, seeing no possibility of change, pushes on-ward with a policy backing its general set-up.

The world watches Russia. If the Five-Year Plan succeeds, based though it is on a kind of state capitalism, the rest of the world will necessarily be impressed. It will mean that there is something in the slogan "All for one, one for all." It will prove the communal plan is not merely an impractical idea. But it will not prove at once that the individual is happier under such a system. That will take decades.

Most clear-thinkers believe that international debts should be settled on a basis determined by the ability of nations to pay and that the millions spent for disarmament should be spent, in part at least, for other more constructive purposes.

But the significant fact is this: although there is a world-wide depression and problems of unemployment, there is also an awareness of what confronts civilization. Men and women are thinking, suggestions are being made, plans are being formulated. So far little seems to have been accomplished. But some progress is being made. That is encouraging.

What happens in future will be determined by leaders in thought and statesmanship. If they recognize that changes must be made, that there are probably good features in systems other than our own and that the future demands that present conditions be solved with a blending of new and old ideas, then we can prove the pessimists are wrong. That is why the optimists see light penetrating the gloom of this complex world situation.

## Mail Order Love

A LITTLE common sense would prevent so many tragedies. The five murders which Harry F. Powers, of Clarksburg, W. Va., committed wouldn't have taken place if two women had refused to let his flattering phrases play upon their vanity. They might have known that advertisements inserted in matrimonial papers aren't based on a certain man's reaction to a certain woman. They are founded on a whole-sale interest in any daughter of Eve who is curious enough to send her name and address and volunteer for a correspondence course in courtship.

But somehow or other there is a woman now and then who has an idea that she is really the woman of his imagination for which the man who advertises is searching. May-be he doesn't know it, she argues. And he certainly won't unless she tells him about it. When an answer comes she can't base the sudden flair of his interest on the light in her eyes or the smoothness of the complexion that he has never seen.

When she finally meets the man and the romance takes a personal turn, the fact that its foundation has been built on shifting sand doesn't give it much room on which to stand.

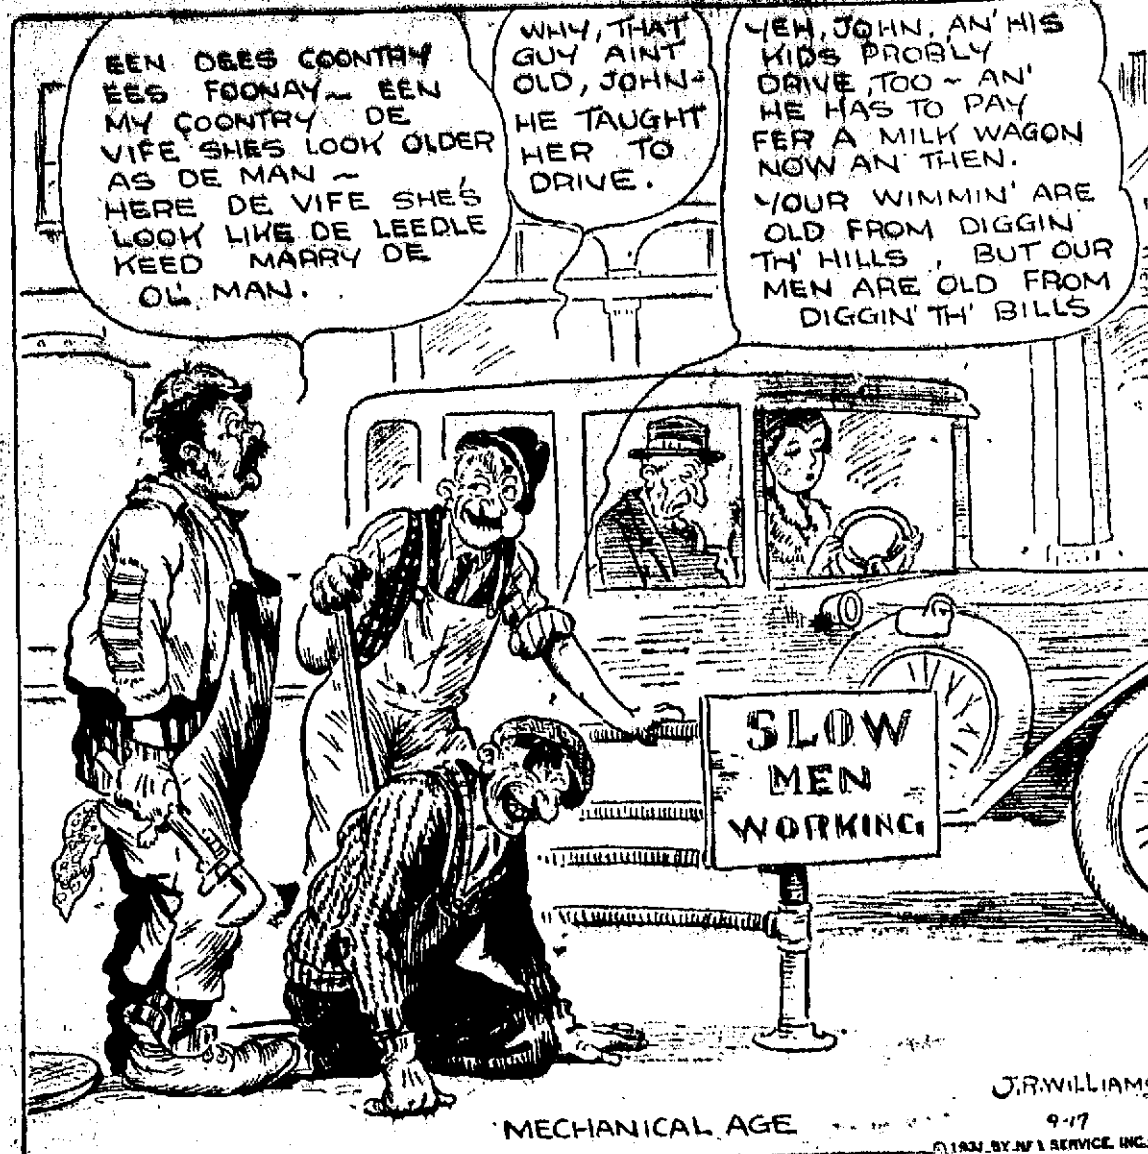

Powers, who preyed upon a foolish sentimentalism which some women have, in order to obtain their property and bank accounts, is a dastardly coward, of course. But it is hard to realize just what make women believe that he was a pearl of great price.

There have been pitiful stories told of women who have been afraid that their communities would think that they were unsought because they hadn't married, and who plucked a Beau Brummel from any tree.

But the two women whom Powers confessed that he murdered weren't the only two who were gullible. Scores of letters from others are pouring into the Clarksburg postoffice in which others admit that they, too, received long distance thrills from the matrimonial advertisements of the slayer.

Now and then someone criticizes the younger generation. Heads are shaken because the girls of today are supposed to have considerable more knowledge of life than their grandmothers had at the same age. But it is fairly safe to wager that a far smaller percentage of the world-wide teen-age group will ever chase a thrill through an advertising agency.

## OUT OUR WAY

MECHANICAL AGE

By Rodney Dutcher

WASHINGTON — Andrew Mellon's big bond issue will supply the treasury with money to meet its current obligations, but it will not forestall the fight for higher taxes in the next Congress. By issuing \$200,000,000 in long term bonds and \$300,000,000 in one-year certificates the treasury is able to handle the deficit for the fiscal year 1937 with something left over for the present fiscal year's deficit.

Nevertheless, despite the fact that money is cheap now, this piece of financing increases the national debt by more than a billion dollars. The government ended its 1937 year June 30th with a deficit of about \$930,000,000 and the rate at which revenue has since been received indicates that the deficit for the fiscal year 1938 will be even larger. Expenses will be larger despite the economy pleas, thanks to increased public works, the Farm Board, veteran appropriations and similar drains, and there seems no prospect of an increase in revenue except by increased tax rates.

Deficits are now being caused by lower internal revenues due to lower incomes on account of the depression and smaller tariff receipts due to the reduction in foreign trade, along with increased governmental expenses. The administration, which counts on the Mellon financing plan to take the steam out of the proposals for increased taxes, will fight to the last ditch to avoid any income tax hike during a campaign year and in this it will be aided by most Democrats, who fear to have their party blamed for any such increase at a time when they are optimistic over chances of political victory.

PROPOSERS of tax increases will be led by the progressives, who will demand an increase in revenue, abandonment of the policy of "borrowing from Peter to pay Paul" and adoption of the

theory that the rich should pay a larger burden of taxation. They will tie up their drive, it is expected, with their attempt to obtain direct federal relief for the destitute unemployed. They are unanimous in the sentiment that taxation is the most immediately feasible method of redistributing the national wealth and that the increasing concentration of that wealth is one of the most disturbing factors in the present situation.

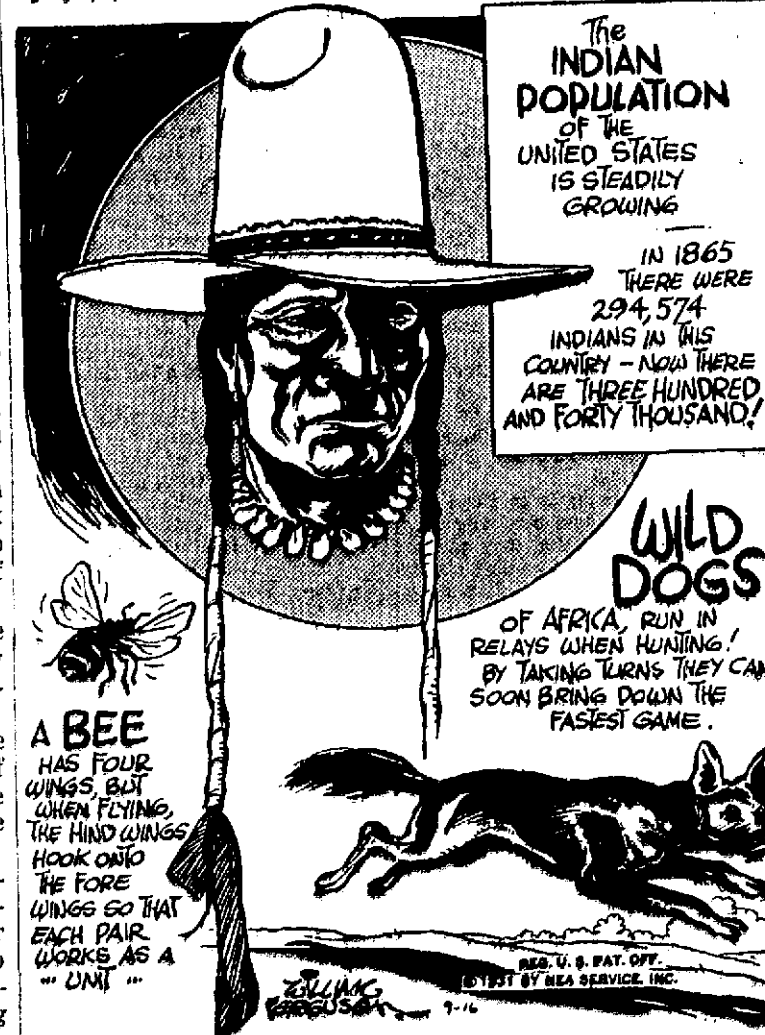

There is, however, a widely held belief that higher income taxes would tend to retard recovery from the depression, and it now seems reasonably safe to say that if the next Congress votes any tax boost it will be passed in the form of increased inheritance taxes, possibly joined with a new gift tax to prevent escape from inheritance taxes.

Many Democrats who would be afraid to support larger levies on incomes of corporations and wealthy individuals would be willing to go after estates through the inheritance tax and gift tax. Some of the progress of Michigan and Congressman Ramseyer of Iowa, appear to favor this method of increased taxation rather than larger income taxes in the near future.

With a greater Democratic representation on the House Ways and Means committee it is not unlikely that with the influence of Ramseyer and one or two other Republicans that very important committee may for the first time have a majority definitely in favor of the estate tax. Even some administration senators have declared for larger "death taxes."

It is at least interesting, if not significant, that Senator Simeon Pess, chairman of the Republican national committee, has publicly committed himself to the view that the nation is suffering from a too rapid concentration of wealth and that increased inheritance taxes is the best means of handling the problem.

## THIS CURIOUS WORLD

MECHANICAL AGE

## By Williams

YEH, JOHN, AN' HIS KIDS PROBABLY DRIVE TOO — AN' HE HAS TO PAY FER A MILK WAGON NOW AN' THEN. YOUR WIMMIN' ARE OLD FROM DIGGIN' TH' HILLS, BUT OUR MEN ARE OLD FROM DIGGIN' TH' BILLS.

WHY, THAT GUY AINT OLD, JOHN? HE TAUGHT HER TO DRIVE.

MECHANICAL AGE

By Rodney Dutcher

WASHINGTON — Andrew Mellon's big bond issue will supply the treasury with money to meet its current obligations, but it will not forestall the fight for higher taxes in the next Congress. By issuing \$200,000,000 in long term bonds and \$300,000,000 in one-year certificates the treasury is able to handle the deficit for the fiscal year 1937 with something left over for the present fiscal year's deficit.

Nevertheless, despite the fact that money is cheap now, this piece of financing increases the national debt by more than a billion dollars. The government ended its 1937 year June 30th with a deficit of about \$930,000,000 and the rate at which revenue has since been received indicates that the deficit for the fiscal year 1938 will be even larger. Expenses will be larger despite the economy pleas, thanks to increased public works, the Farm Board, veteran appropriations and similar drains, and there seems no prospect of an increase in revenue except by increased tax rates.

Deficits are now being caused by lower internal revenues due to lower incomes on account of the depression and smaller tariff receipts due to the reduction in foreign trade, along with increased governmental expenses. The administration, which counts on the Mellon financing plan to take the steam out of the proposals for increased taxes, will fight to the last ditch to avoid any income tax hike during a campaign year and in this it will be aided by most Democrats, who fear to have their party blamed for any such increase at a time when they are optimistic over chances of political victory.

PROPOSERS of tax increases will be led by the progressives, who will demand an increase in revenue, abandonment of the policy of "borrowing from Peter to pay Paul" and adoption of the

theory that the rich should pay a larger burden of taxation. They will tie up their drive, it is expected, with their attempt to obtain direct federal relief for the destitute unemployed. They are unanimous in the sentiment that taxation is the most immediately feasible method of redistributing the national wealth and that the increasing concentration of that wealth is one of the most disturbing factors in the present situation.

There is, however, a widely held belief that higher income taxes would tend to retard recovery from the depression, and it now seems reasonably safe to say that if the next Congress votes any tax boost it will be passed in the form of increased inheritance taxes, possibly joined with a new gift tax to prevent escape from inheritance taxes.

# CAR OWNERS DEMAND VALUES —not Claims!

**GUM-DIPPED CORDS**  
Firestone Tires are Gum-Dipped. This patented process penetrates every cord, coats every fiber with pure liquid rubber, gum dipping increases the flexibility of the cords, increases traction and friction and heat, increases the strength of the tire body — makes longer tire life. Only Firestone Gum-Dipped Tires give the Extra Value.

**TWO EXTRA CORD PLYS UNDER THE TREAD**  
This patented construction of Two Extra Cord Plys under the tread in Firestone Tires insures a stronger bond between tread and cord body and greater protection against punctures and blowouts. This new, improved "all cord" construction anticipates the old-fashioned cross-woven fabric construction used by others.

**MOTORISTS are finding the Greatest Values in Firestone Gum-Dipped Tires.** Ever since Firestone and Firestone Dealers began advertising the true facts about tire quality and construction and actually demonstrating the Extra Values in Firestone Gum-Dipped Tires, distributors of special-brand mail-order tires have grown bolder and bolder with misleading claims and comparisons in the desperate effort to interest car-owners.

Car owners bought more Firestone Tires in May, June and July, than in any like period in history. This clearly shows that car owners are interested in Firestone Extra Values and are not interested in comparisons based on an almost obsolete tire size—confusing laboratory analyses—meaningless definitions—impractical challenges with unfair claims of twenty-five per cent savings—and deceiving price comparisons.

Why risk a tire of unknown manufacture when you can get the Extra Quality, Extra Strength, and Extra Safety of the special patented construction features of Firestone Tires—Gum-Dipping, and Two Extra Cord Plys under the Tread?

You get these Extra Values—plus our Service and the DOUBLE GUARANTEE of Firestone and ourselves—at no more cost!

Drive in today.—We have sections cut from Firestone Tires, special-brand mail-order tires and others.—See the evidence.—Take nothing for granted.—Judge for Yourself.

So many little faults we find,  
We see them. For not blind  
To love, we see them, but if you and  
I see them, perhaps remember them, come by and  
by.  
They will not be faults  
Then—grave faults to you and me,  
But just odd ways—mistakes or even  
less.  
Remembrances to bless.  
Days change so many things—yes,  
hours,  
We see so differently in suns and  
showers.  
Mistaken words tonight  
May be so cherished by tomorrow's  
light.  
We may be patient, for we know  
There's such a little way to see and  
go.—Frances E. Willard.

Mrs. Sidney Stanford is spending a few days visiting with friends and relatives in New Orleans.

Mrs. G. Frank Miles left Thursday for a short visit with friends in Camden.

Miss Winter Cannon left Monday for Conway, where she enters Hendrix college.

Hayes McRae is spending a few days on business in New Orleans, La.

Mrs. G. Frank Miles was hostess on Wednesday afternoon to the members of the Wednesday Contract Bridge club at her attractive apartment on South Pine street. The card rooms were prettily decorated with a quantity of garden flowers, and bridge played from two tables, with Mrs. J. O. Karner, Lowthorp and Mrs. Lloyd Spencer as special guests. Prizes were won by Mrs. C. S. Lowthorp and Mrs. Spencer. In keeping with a recent rule adopted by this club, there were no refreshments but a donation to the United Charities.

Talbot Feild Sr., Mrs. H. A. West and Miss Hattie Anne Feild spent Thursday visiting with friends in Little Rock.

Mrs. C. S. Lowthorp, Frank Lowthorp and Geo. Spragins motored to Camden on Thursday for a short visit with friends.

Mr. and Mrs. J. F. Porterfield and Mr. and Mrs. Tom Kinser and family have returned from a short visit with friends and relatives in Little Rock.

A beautifully appointed luncheon was given on Wednesday by Mrs. Tully Henry at her home on South Pine street, honoring Mrs. W. J. Sandridge of Shreveport, La. Mrs. J. P. Cox, the central decoration of the luncheon table was a crystal basket filled with overflowing with lovely red radiance roses. The chosen color note was also prettily emphasized in service and menu of the tempting course luncheon. The guests of this charming affair were Mrs. W. J. Sandridge, Mrs. John P. Cox, Mrs. Terrell Cornelious, Mrs. N. W. Denty, Mrs. Max Cox, Mrs. Robert Campbell and Mrs. Hayes McRae.

Mrs. P. A. Tharp spent Wednesday visiting with her sister, Mrs. J. T. Smith in Texarkana.

Mrs. Myrtle Baker of Fort Worth, Tex., is the guest of her parents, Mr. and Mrs. W. F. Garner.

Stockton, Cal., training camp for the San Francisco Missions of the Pacific Coast league for several seasons, hopes to land the New York Giants' spring headquarters.

## "Nothing Like It" Say Lovely Women

No wonderful beautiful women love this new face powder made by exclusive French process. MELLO-GLO stays on longer. Prevents large pores. So smooth and fine, it blends naturally with any complexion and gives fresh, youthful bloom. No irritation. No flaky or pasty look. Never leaves the skin dry. It's wonderful. John P. ## Cities Service to Offer Stock Sale

Manager J. K. Sale Notified of Custom-Ownership Campaign

Friends of J. K. Sale who manages the local gas office, will be glad to learn that he is still in his right mind and in no immediate danger of having to be moved "Southwest of Benton." It has recently been rumored that J. K. has set up in his little one of those new-fangled talking machines so generally used by the modern football fraternity—furthermore, that J. K. has been using it himself. But simple is the explanation of this seeming mystery. J. K. is training, but not for football. It seems that in accordance with an old custom established many years ago by Cities Service Company, em-

## Capitol's Stone Steps Wear Out

Worn out by the tread of sightseers, politicians and other visitors during the past 6 years, the stone steps on the west front of the national capital at Washington, D. C., are being replaced, and here you see a crew of men at work. Brick work supporting steps against the capitol terraces is also being rebuilt.

## Brough Will Address Old Settlers Reunion

MENA, Ark.—Former Governor Charles H. Brough will be the principal speaker at the Old Settlers reunion to be held at Janssua park Friday.

The reunion opens Thursday and it is expected that Senator Caraway, Attorney General Norwood and Highway Commissioner Dwight Blackwood will be present one of the speakers. The annual gathering of old settlers will be held this year in conjunction with the agricultural exhibit at the state armory.

# FOR YOUR INSPECTION

THE MERCHANT and manufacturer who advertise, actually are placing their merchandise before you for inspection. They invite your most critical attention and an uncompromising comparison. And their advertisements, so to speak, say to their products: "We have introduced you to the public—now stand on your own merits."

If the manufacturer and merchant did not have confidence in their wares, they would hesitate to call attention to them. For advertising rigidly tests the maker, the seller and the merchandise. Business so tested, and found not wanting, is prosperous. In the long run, you can depend on the man who advertises, as well as on his product. That is one reason why people have found that it pays to read advertisements.

It is through advertising that the excellent things of the world are brought to the attention of those who are seeking for the best and most economical way to spend their money. Read the advertisements. They are news.

## Hooks and Slides

the front  
trenches from a  
viewpoint look pretty  
same as usual. But in  
behind the lines are  
new commanders-in-chief,  
issuing official orders  
for the first time this

the Atlantic coast, Eddie  
the new boss at Harvard.

the Notre Dame grad, has  
the place on the crest of  
the team.  
There are three changes in the  
of the team. Heartley (Hunk) An-  
the Notre Dame's  
the "slide" schedule. Indiana  
the place of C. Hayes to the  
the Pat Page held. Iowa State took  
the place of the basketball coach,  
the Michigan and installed him as  
the coach of football.

And on the west coast, Skipper  
the place of the Navy, has  
the place to the job of making  
the place of California's football  
the place.

Anderson's Job  
WHAT will these fellows do this  
year? Try to produce a cham-  
pionship team, probably. At least  
they will strive to put out fighting  
teams that will give good accounts  
even in defeat.

Some of them may not develop a  
championship eleven this fall, or  
even next year. And some of them  
may not get another chance after  
this season.

You probably are thinking Hunk  
Anderson has the hardest task  
ahead of him. Maybe so. Person-

Football Aids Poor Boys  
Says Tennessee Director

KNOXVILLE, Tenn.—(AP)—Col. Paul  
Parker, University of Tennessee ath-  
letic director, says present day college  
football has done more to aid poor  
boys in quest of a college education  
than any other thing.

"Poor boys who otherwise would be  
denied higher education have obtain-  
ed scholarships and been aided  
through college," he said.

"I am further convinced," he con-  
tinued, "that football has done more  
to bring colleges into contact with the  
public, improved the student body,  
encouraged boys to go to college and  
created a better spirit among stu-  
dents."

"Colonel Parker said the Carnegie  
Foundation report emphasized the  
 evils of the game and overlooked the  
benefits."

A fast and flashy mile course has  
been laid out in Lake Merritt, in the  
heart of Oakland, Cal., in preparation  
for the national outdoor motor cham-  
pionships in October.

## DID YOU KNOW THAT—

SIXTEEN veterans make  
up the nucleus around  
which Glen Thielthwaite  
is planning a strong Wiscon-  
sin eleven this fall.  
One of them is Greg Kabat,  
a whole of a guard.  
Keep an eye on Kabat this  
fall. . . . That leaping fig-  
ure, blue-jerseyed and or-  
ange-helmeted, on the Illi-  
nois football poster is Cas-  
lon Bennett, winner of  
football and basketball let-  
ters as a sophomore last  
year. He's one of  
Zap's veteran ends. . . .  
Pardee claims to have two  
of the best fullbacks in the  
country in the same back-  
field. . . . They are Alex  
Yunovich, senior, and Roy  
Horstman, junior, a lad who  
stole some of Yunovich's  
thunder last fall. . . .  
Spring football practice on  
top of a building at Temple  
University was so successful  
that Head Coach Heinie  
Miller intends to continue it  
every spring hereafter.

ally, I'd rather try Anderson's as-  
signment this fall than any of the  
others.

## Rockne Picture Visible

THROUGHOUT the coming cam-  
paign at least, Anderson will  
work with boys who have pictures  
of Rockne indelibly stamped on  
their hearts. Time will fade these  
pictures as they always fade in  
youth. Then it will be harder for  
Anderson. He will be entirely on  
his own then.

Notre Dame may lose a game or  
two, maybe more, this fall. You  
can't expect a team to dodge defeat  
forever. Besides, who knows but  
what they would have been stopped  
had Rockne stayed.

I wouldn't go so far as to say  
Anderson's job would be easy. But  
with the magic name of Rockne,  
Notre Dame may have spiritual as  
well as physical advantages.

Virginia Grid Ace After  
Elusive Hundred Points

WILLIAMSBURG, Va.—(AP)—Last  
year Clarence "Red" Maxey, William  
and Mary scoring ace, was going to  
score "100 points or bust."

He "busted"—a rib as he scored  
his 99th point.

He's out this year—as a senior—to  
achieve the coveted record of scoring  
100 points in football.

He led the scorers in his sopho-  
more year with 93 points, and set out  
in his junior year to add one touch-  
down and extra point to that record.  
Thanksgiving day he scored his 99th  
point and cracked a rib.

An old codger was crossing a busy  
corner when a huge police dog dashed  
into him and bowled him over.  
The next instant an Austin skidded  
around a corner, bumped him, in-  
flicting more severe bruises.

Bystanders assisted him to his feet,  
and some one asked him if the dog  
had hurt him.

"Not exactly," he replied, "it was  
the tin can tied to his tail that did the  
most damage."

Gridiron Season  
Opens This WeekMalvern Meets Little Rock  
Under Lights Friday  
Night

LITTLE ROCK.—(AP)—In many cases  
presenting entirely new teams, the  
high schools of Arkansas will inaugu-  
rate the 1931 football season this  
week end in quest of the cham-  
pionship shared last year by four teams.  
Nine of the predicted first-ranking  
teams will see action either Friday or  
Saturday, with three of them booked  
with opponents who may be expected  
to upset the dope.

Camden, with most members of the  
strong team of last year back, faces  
an easy opponent in Smith. Fordyce,  
presenting an entirely new team after  
a run of several years with such stars  
as the Jordan twins, will meet Beard-  
on; while Prescott tackles the Hender-  
son State Teachers College seconds.

Malvern, which laid claim to a share  
of the championship honors last year,  
is booked with Little Rock in a night  
game here Friday, and the game is  
viewed in advance as anyone's.

Fort Smith meets Fayetteville, with  
the Grizzlies favored to win.

On Saturday, the strong El Dorado  
squad, tied tied Fordyce last year,  
will meet the Ouchida college fresh-  
men, while Pine Bluff, presenting the  
"mystery" team of the season, will  
tackle Blytheville.

Birmingham Wins  
Against HoustonDizzy Dean Loses—Ath-  
letics Capture 100th  
Game for 1931 Pennant

Birmingham defeated Houston in the  
opening game of the Dixie Series Wed-  
nesday, in a sterling pitchers' bat-  
tle between the ancient but crafty  
Ray Caldwell, and young Jerome  
(Dizzy) Dean, strike-out king of the  
Texas League.

But all honors went to old Caldwell  
and the Southern association, for the  
Birmingham Barons' ace struck out  
five men himself and let the invading  
Texans down with a 1-to-0 defeat. He  
allowed but seven hits. Dean held  
Birmingham to only five, but the  
Alabamians showed their lone tally  
across in the eighth inning. The  
teams play at Birmingham again  
Thursday, then go to Houston for the  
third game Saturday.

In the National League, "Wild Bill"  
Hallahan celebrated his 18th pitching  
victory by clinching the pennant  
again for the St. Louis Cardinals with  
a 6-to-3 victory over the Phillies. It  
is the fourth flag the Cards have won  
in the last six years. With nine more  
in the last six years. With nine more  
in the last six years. With nine more  
in the last six years.

The Chicago Cubs beat Boston  
twice, 6-5 and 8-7. Cincinnati won  
two from New York, 7-3 and 4-3; and  
Brooklyn defeated Pittsburgh 11-5.

In the American League, the World  
Champion Athletics won their 100th  
game, and George Earnshaw his 20th  
pitching triumph of the season, with  
a 7-5 victory over Cleveland.

Washington pulled another half-  
game ahead of the Yankees, who were  
idle, with a 6-2 victory over St. Louis.  
Washington is a game and a half  
ahead of the Yankees for second place.  
Boston downed Chicago 2 to 1.

Washington pulled another half-

Married Men Monopolize  
Fullback Berth at Iowa

IOWA CITY, Iowa.—(AP)—Young  
man, if you would play fullback for  
Iowa, get married!

That would seem to be sound ad-  
vice, for with the expected filling of  
the fullback job on the 1931 Hawkeye  
team by Capt. Ollie Sansen, it will be  
four years since an unmarried player  
has held forth there.

Sansen's predecessors, who have  
kept fullbacking safe for benedictos  
since 1927, are Brice Thomas and  
Mayes McLain, the latter the one-  
time Haskell Indian school star.

Texans See Two Triumphs  
in Harvard, Navy Battles

DALLAS, Texas.—(AP)—There is no  
"underdog" feeling among southwe-  
stern football teams facing famous op-  
position.

Coch Clyde Littlefield of the Uni-  
versity of Texas Longhorns and Dr.  
R. N. Blackwell, business manager of  
Southern Methodist university ath-  
letics, in a recent interview saw noth-  
ing but woe in store for Navy and  
Harvard in forthcoming intercollegiate  
games.

Littlefield predicted that Southern  
Methodist would beat Navy 13 to 7.  
Dr. Blackwell, discussing the Harvard-  
Texas game, thought the final score  
would be Texas 25, Harvard 7.

Steam Hastens Growth  
of Sweet Potato Plants

RAEFORD, N. C.—(AP)—J. D. Tapp  
hastened the growth of sweet potato  
plants on his farm by heating the soil  
under the plant bed with steam pipes.  
County Agent W. D. Burton said the  
steam was turned on for about one  
hour a day, and operated from a  
small steam plant nearby.

When the plants in the steam heat-  
ed bed had reached a height of seven  
inches, the county agent said, others  
bedded at the same time in unheated  
soil, were just breaking through the  
top of the soil.

DALLAS, Tex.—(AP)—Houston again  
led the state in new construction with  
building permit total last week of  
\$133,155. Dallas was second with \$79-  
561.

Amarillo continued its vigorous pro-  
gram with a weekly total of \$9,520.  
Galveston with \$58,921 and Fort  
Worth with \$58,911 also display con-  
sistent progress as did San Antonio  
with a total of \$47,170.

## A Bird of a Trick

Putting a cigarette in his master's mouth is just one of many tricks that  
delighted a London court audience when Jack, a jackdaw, appeared as  
"plaintiff" against a man who catrucked and injured him with a stick. The bird  
is shown here with his owner, Freeman Thredgold.

Man Is Killed Near  
Dierks in Car Mishap

DIERKS, Ark.—The body of David  
R. Oliphant, 76, retired farmer of  
Sherman, Texas, who was fatally in-  
jured Tuesday night when the car in  
which he was riding overturned five

miles northeast of here, was sent Wed-  
nesday to Sherman for burial.

The accident occurred at the foot of  
a hill on highway No. 70 when Miss  
Jessie Oliphant, daughter of the dead  
man, applied the breaks of the auto-  
mobile too quickly at a railroad stop  
sign, causing the machine to skid and  
overturn. Other occupants of the car

Murray in Plea for  
One-Third Acreage Cut

OKLAHOMA CITY.—(AP)—Govern-  
nor Murray rolled up his sleeves  
Wednesday and exhorted nearly 1000  
wheat and cotton farmers in confer-  
ence here to support him in estab-  
lishing one-third acreage reduction as  
a permanent future policy, with a 50  
per cent reduction for the next two  
years.

He urged adoption of resolutions  
directing him to draft proposed legis-  
lation to be initiated in the imme-  
diate future. This would provide for  
cutting acreage by half for two years  
and set up a plan under which the  
crops could not be planted on the  
same ground on consecutive future  
years. This, Murray said, would re-  
sult in a basic yearly reduction of  
one-third the total acreage.

Aged Indian, 140, Is  
Death Victim at Home

EUNICE, La.—(AP)—Andre, aged In-  
dian who claimed he was 140 years  
old, died Tuesday in his thatched cot-  
tage outside the city. He said he  
could remember the war of 1812 and  
that his people, the Choctaws, built  
the mounds around Baton Rouge to  
escape Mississippi river floods.

He was married seven times and  
could not remember how many chil-  
dren and grandchildren he had. He  
wore his first pair of shoes three  
years ago.

escaped injury. The Oliphants were  
on their way from Hot Springs to  
Sherman. Sam Porter, a passing mo-  
torist, picked them up and brought  
them here. Oliphant died shortly af-  
ter reaching a physician's office.

## 13—That Lucky Number!

Thirteen an unlucky number? Well, hardly! Listen to this: Both the  
Rev. and Mrs. William H. Deacon of Malden, Mass., were born on the 13th  
day of a month, and so was their baby son. Therefore, when they baptized  
him, they chose to do it on September 13th, which is their wedding anniver-  
sary. Two cousins who were present at the ceremony each has a birthday  
anniversary on the 13th day of a month. Here father, mother and son are  
pictured shortly after the baptism.

## Heads U. of A. Razorbacks

CAPTAIN  
EARL  
SECEST

FAYETTEVILLE, Ark.—For the  
sixth time in the past seven years the  
University of Arkansas football team  
is captained by a lineman, Earl Se-  
cest, 185-pound guard from Hope,  
Arkansas.

Since Brad Scott, tackle, was elected  
captain in 1925, the Razorbacks have  
constantly picked their leaders from  
the line, with the single exception of  
Quarterback Clarence Geis who led the  
1929 team. Harmon Boozeman, 1926  
captain, played center, as did also  
Russell Coleman, 1927 leader. The 1928  
captain, Alva Winter, played tackle,  
and Milan Creighton, last year's cap-

tain, was a guard.

Secest, who will be playing his  
third year on the Cardinal and White  
eleven, is an ideal leader and should  
inspire all kinds of fight in his team.  
While he was used regularly at guard  
last season, the Arkansas coaches ex-  
pect to use him in a utility role this  
year, shifting him from guard to end.

The Razorback captain is a senior  
in the college of arts and sciences and  
is a better than average student. He  
is working his way through the uni-  
versity as a member of the Fayette-  
ville fire department, having been a  
member of the night crew for three  
years.

# GUILTY LIPS

by LAURA LOU BROOKMAN  
Author of "MAD MARRIAGE"

**BEGIN HERE TODAY**  
Pretty NORMA KENT, 20-year-old secretary, arrives at her home, a small cottage in the hills, where she has just moved. She is a bit nervous, but she is determined to make a success of her new life. She is a bit nervous, but she is determined to make a success of her new life.

The story opens in Markham, where she is a bit nervous, but she is determined to make a success of her new life. She is a bit nervous, but she is determined to make a success of her new life.

**NORMA** spread the newspaper out on the living room table. She bent over it, frowning slightly as she studied a column. The words were in fine print and very black. Norma pursed her lips as she read.

"That's the bird. Just a little better over it and dredge with flour, salt and pepper. Put in roasting pan and place in hot oven. Baste at frequent intervals."

The three little wrinkles in the girl's forehead deepened. Somehow the instructions sounded complicated. She went on reading until she had finished the column.

It was last night's edition of the Press that lay before her, opened to the woman's page. In two columns on the right-hand side, Sister Sarah, the home economics editor, gave menus and recipes for the Thanksgiving dinner.

Sister Sarah wrote of traditional reasonable delicacies. Of course there must be dressing and gravy with the bird. Celery and cranberry sauce and all the harvest vegetables were synonymous with Thanksgiving. For dessert either mince pie or pumpkin and there'd be no harm in having doughnuts and elder and squares of cheese

Thanksgiving was three days away. For a week Norma had been thinking about the holiday. Mark would not have to go to the store and the rest would be a fine thing for him. So much of the time lately Mark had looked tired.

Cooking the Thanksgiving dinner was a challenge to Norma's housewifely ability. She was eager to show her skill and at the same time a little anxious. She had read every word in Sister Sarah's column for several days.

Turkey, of course, was out of the question. Imagine cooking a turkey for two! Chicken seemed commonplace. Norma made her decision.

## Wheat Buys College Tuition

Money being scarce and wheat plentiful, Park Region Luther College, Pergus Falls, Minn., is accepting wheat in lieu of cash for tuition. Here is Miss Marghild Asleson, at the right, delivering a load at the college door as her payment. The school disposes of it through local elevators, but stipulates it will accept wheat only from families that grow it.

## Sardis

Everyone is enjoying the pretty weather we are having for gathering their crops.  
Mr. and Mrs. Basil Rider and daughter Dorothy spent Sunday with Jack Walker and family near Palmos.  
Mrs. Vida Prayner of Hope spent Sunday night with home folks at this place.  
John Wilson of Hope was visiting in Sardis Saturday morning.  
Mrs. Martin and daughter, Nora, and Robert Brent and wife of Spring Hill called to see Mrs. Jennie Mayton Thursday afternoon.  
Harrel Hamlet, Blant Jones, Ray and Lucille Mayton attended the party at Poney Reeves' Saturday night.

## Whites Chapel

Miss Curley Lee Murphey spent the week end with Miss Dellar Jeffers of Jain Jones.  
Mrs. W. J. Hoover and little son, Hilda Jackson of Murfreesboro, who spent last week with her parents, Mr. and Mrs. W. H. Worthing returned home Sunday.  
Mr. and Mrs. Herman Worthing attended church at Eblevins Sunday night.  
Quite a number from this place attended preaching at Jaka Jones Sunday afternoon and are expecting to attend again next Sunday.  
Mr. and Mrs. Claud Murphy spent Sunday with Mr. and Mrs. Sam Atkins of Holly Grove.

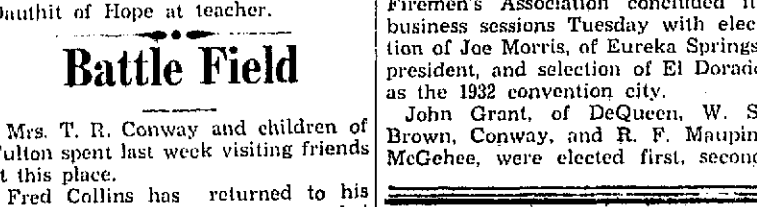

## Harmony

Picking cotton is the order of the day in this community.  
Those that were visitors at the Geo. McMillen home Sunday were Mrs. Nellie Leach and son, Leo Farmer, Mr. and Mrs. Joe Daugherty, Mr. and Mrs. N. N. Jeanes and Mr. and Mrs. Lee Jeanes and daughter Helen, of Evening Shade and D. R. Davis, Ray McWilliams and E. Daugherty.  
Mr. and Mrs. Mackay of Hope, have moved into our community.  
Mr. and Mrs. Thurman Yandis and baby spent Saturday night with their aunt, Mrs. Ella Hodnett.  
The Misses Mitchell and Harley Vines and Madia Huckabee were visitors in Boden Sunday.  
Mrs. Jett Rogers has moved into her new home which is now completed.  
George McMillen and family and George Karber and daughter, Louise, were Hope visitors Saturday.  
School will open the first Monday in October, at this place with F. J. Daulton of Hope as teacher.

## Battle Field

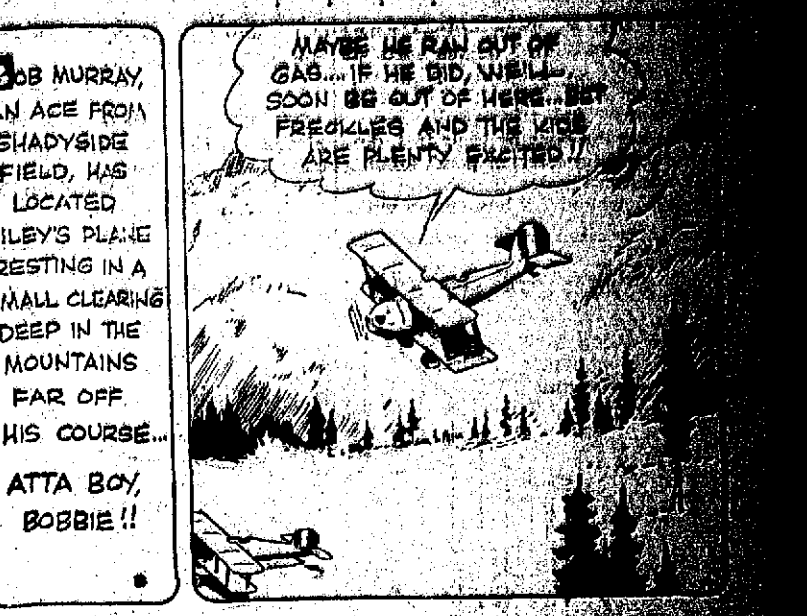

Mrs. T. R. Conway and children of Fulton spent last week visiting friends at this place.  
Fred Collins has returned to his home in California after an extended visit with relatives here.  
Mr. and Mrs. Thad Collins and

## Free Peaches!

All the peaches you can carry are yours for the asking around Washingtonville, O., where a bumper crop has catapulted the price so low orchard owners have announced they're not worth picking. Here's Edna Coy, 19 in the heart of the peach district, lastling one, and offering you as many as you want.

## Freckles and His Friends

HEY, RILEY OLD BOY!! WHAT'S THE TROUBLE? YOU HAVE US BACK IN SHADYSIDE SCARED OUT OF SEVEN YEARS' GROWTH. GLAD YOU'RE O.K.

WHY! NOBODY HERE!! GOSH! WHAT'S HAPPENED TO THEM?? MAN! THIS IS A PUZZLE!! RILEY! OH, RILEY!!

## There's No Schoolroom Air To Chic Co-Ed's Party Frocks

By DIANA MERWIN (Associated Press Fashion Editor)  
PARIS—(AP)—Party frocks for the chic co-ed have an air of sleek sophistication.  
While classroom clothes remain simple, the smartest frock which Paris designers have evolved for the college girl's sorority tea party is of black satin or ruffled crepe, made along lines almost as worldly as her mother's.  
There are long sleeved black satins designed with diagonal princess pleated and fine accordion pleated skirts incrustated on the diagonal.  
There are black romanes with brilliant Persian embroidered belts and cuffs and black crepes with tied fichu collars lined with brilliant crepes.  
For the girl who wants a colored gown there are brown, wine red, bottle green and sapphire blue romanes frocks with tiny tuckings at the waistline and cascading flounces on the skirt.  
These may be worn with little waistlength three-quarter sleeved popular dancing frock.

And third vice presidents, respectively, Harry D. Compton, Little Rock, was re-elected secretary-treasurer.  
Coach Fred Dawson's biggest problem at Virginia this year appears to be development of an aggressive forward wall.

## More Chickens In Iowa

DES MOINES, Iowa—(AP)—Chicken raising has become big business in Iowa. More than 48,000,000 were raised in 1928, and more than 188,000,000 eggs were produced.

## Uncle Sam's Sea-Going Airport

Her deck dotted with wasp-like fighting planes, the U. S. airship carrier Lexington is shown in this striking photo as she appears from the sky. There are 55 planes aboard her—count 'em. The big floating airport is seen moored in San Francisco Bay.

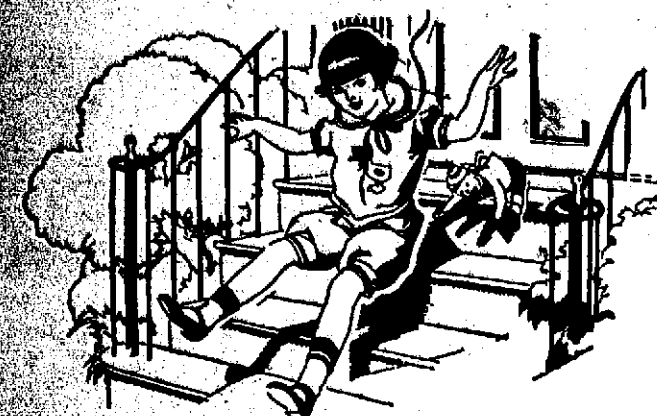

### Degrees Methods Used by Broody Hens

CHADWELL, Tenn.—(AP)—Cute little broody hens are using the same old, same old method of "breaking up" broody hens. A. J. Chadwell, University extension poultryman, says that the hens are being broken up by their feet, dipping in a creek or pond, holding under a water faucet, and confining them under a box or tub with-

out food or water are some of the methods suggested. Chadwell says the broody hen should be placed in a coop the first night she remains on the nest, as any delay will increase the length of time she will stay broody.

Bill Brigham, Greenville, S. C., who played football, basketball and baseball at the University of South Carolina, is pitching with Wareham, Mass., in the Cape Cod league.

### "Played-in" dirt removed safely

## Everything you send us is washed with IVORY SOAP

Little rompers, with dirt "played-in," come back speckless and spotless, with colors protected by pure, fine Ivory. Your nice linens, your fleecy bath towels, stay new-looking longer because in this laundry no soap but Ivory ever touches them.

Naturally, it costs us more to use Ivory than to use ordinary soaps—but we give you this extra service without charging you a cent more. This is our idea of real service to our customers.

If you would like your clothes "Ivory-washed," telephone us and our driver will call promptly.

### Ex-Service Men to Convene Monday

**National Meeting to Be  
Held in Detroit on  
September 21-24**

DETROIT.—(AP)—A mass movement declared never before equaled in the United States will be completed September 21, when thousands of members of the American Legion move into Detroit for their national convention.

Col. Frederick M. Alger, Detroit, president of the Legion Convention corporation, declares that the Detroit convention will bring the largest number of delegates in the history of the organization.

Due to the fact that the Legion membership in the past year has grown from \$25,000 to over 1,000,000 and because of Detroit's central location he says an attendance of at least 100,000 is assured.

Last year's convention in Boston brought 80,000 delegates.

Practically all the delegates, with their wives and members of the auxiliary, will arrive between 9:30 p. m. Saturday, September 19, and 7:30 a. m. Monday, September 21.

Transportation agencies have combined to speed the arrival of the delegates.

Scores of special trains and buses will carry Detroit-bound Legionnaires. Parking space has been arranged for thousands of automobiles.

Thirty thousand delegates will sleep in Pullman cars shunted into Detroit railroad yards. Hotel reservations now are near capacity.

With the Legion throng will come 400 bands and bugle corps which will have a leading part in the parade, to be held Tuesday, September 22.

The opening meeting of the four-day session will be in Olympia arena on the morning of September 21.

Ralph T. O'Neil, national commander, and Col. Alger will welcome the Legion delegates, while Mrs. Robert Lincoln Hoyal, Douglas, Arizona, national president of the Legion Auxiliary, will make the address of welcome to the women's units.

In addition to election of a national commander and choice of the 1932 convention city, chief problems of the business session this year are expected to center around a possible attempt to bring the prohibition question to the convention floor and a discussion of the unemployment situation.

Preliminary to the latter was the conference of governors, mayors and representatives of labor, capital and industry which Commander O'Neil called to meet in Washington before the Detroit sessions.

From this gathering the Legion's unemployment commission planned to carry recommendations to the convention.

To Detroit with the Legion will come the "40 and 8," an organization within the veterans' membership, which will bring the official "40 Hommes et 8 Cheveaux" box car presented to the Legion by the French government.

### 'Quick On Trigger' In Peace and War 'Devil Dog' Buttler Is Quitting Marines

By REID MONFORT

WASHINGTON.—(AP)—From a corps famed for its fighting soon will go forth a leader bright with much of its martial glory.

For on October 1 Smedley D. Butler, fiery and spectacular major general of the marines, retires at the age of 50 after a service of a third of a century.

Around this slender Quaker valor has woven shining tales.

His deeds in peace have been hardly less glamorous than those in war.

His racy, blunt speeches probably have caused him more trouble than all the bandits he fought in Haiti, Nicaragua and China.

He Killed Mussolini

His remark about Benito Mussolini evoked an apology from the American government to the Italian premier and a reprimand for himself from the secretary of the navy. His expressed regret called off a court martial.

For alleged use of the word "hell" he was cut off a radio program.

He has been perhaps the most talked about United States marine.

"From the halls of Montezuma To the shores of Tripoli."

Pride of the "Devil Dogs," General Butler has won decorations on wide-spread battlefields. Two congressional medals of honor have been awarded him for bravery.

Marine officers like this impetuous and agile-tongued warrior.

"Whether he was the thick of the fray, spinning the tall yarn, or just plain sitting still, he had color all about him," says a companion who served with him six years.

Marine Name In Battle

"His was a magic name in battle," is the tribute of another associate to the stormy "Leatherneck" leader who embodies for many persons all the fighting qualities which the name marine suggests.

"Gimk! Eyes," as he was known to some, puts his whole 140 pounds, or more, into everything he does, whether it is leading a cheer or a charge.

Dramatic and democratic, he is pictured by associates as a man of engaging personality, "who makes you work and like it."

He has the reputation of "putting his men on the back when they do the job well," and probably calls more marines by their first name than any

other officer. He still retains in his speech the "Thee's and Thous" of his Quaker ancestry. He likes to talk and launches a yarn with zest. Gesticulating with a long, bent fore-

finger, he carries with and humor in his deep, measured tones.

Many are the stories told by his associates of his gallantry.

Showed Heroism Under Fire

They range from the time when as a young officer in China he dared shot and shell to rescue a wounded British soldier until that not long past day at Quantico when he leaped from his horse to carry the pack of a sick man.

Enlisting in the marine corps shortly after he was 16, by "putting up his age a bit," he soon became a lieutenant. He was a brigadier general at 39.

Philadelphia borrowed him during 1924-25 to act as director of public safety. He relentlessly fought bootleggers and politicians only to be replaced by the mayor with another man.

Only a war emergency would induce him to enter public service again, he says.

### Legion Seeks to Aid in Unemployment

**Compares Emergency to  
World War Crisis  
of 1917**

WASHINGTON.—(AP)—Ralph T. O'Neil, national legion commander, opened the Legion unemployment convention Monday with a declaration that work must be found for the jobless to save them from becoming racketeers and communists.

He compared the emergency to the World war crisis and said the Legion was ready to function again as in 1917.

Legion officials are conferring with labor and industrial representatives to work out a plan for unemployment relief.

### Cut in Navy Pay to Be Investigated

**British Bluejackets Show  
Dissatisfaction When  
Wages Are Cut**

LONDON.—(AP)—Bluejackets of the British Navy's Atlantic Fleet through a series of demonstrations against cuts in pay obtained from the Admiralty Wednesday a promise of re-examination of the new rates with a view to the alleviation of such hardships as might be revealed.

This announcement was made by Sir Austen Chamberlain in the house of commons and the ships were ordered to return to their home ports immediately.

### Murray Is Endorsed as Presidential Candidate

MEDICINE PARK, Okla.—(AP)—Members of the League of Young Democrats of the sixth Oklahoma district, in a resolution endorsed Governor William H. Murray of Oklahoma as a candidate for the democratic presidential nomination at their meeting here last Saturday.

Governor Murray has not admitted he has presidential aspirations, but his friends have discussed the possibility often in recent weeks.

### No Oil Troubles Here

The southwest may be having its oil troubles, but not Pennsylvania, which has been producing oil for 72 years. The upper picture shows the owner of a well in western Pennsylvania, sitting placidly in her favorite chair as the well pumps away in her front yard near a cemetery. Below, Samuel Smith is seated beside the first oil well in the world, near Titusville, Pa., which he helped drill.

### Annual Singing at Antioch Sunday

**All Singers Requested to  
Attend—Many Singers  
Are Invited**

The annual singing will be held at Antioch church, three miles east of Emmet next Sunday, September 20. All singers are urged to attend. Lunch will be served at the noon hour. Everyone who has books are requested to bring them.

More than 2,000 athletes representing 35 nations are expected to compete in the Olympic games at Los Angeles next summer.

### Piles Go Quick

Cheer up, all is not so dreary as it seems. Fashion designers have promised some creations for fall and winter that at least ought to produce a giggle.

Piles are caused by congestion of blood in the lower bowel. Only an internal remedy can remove the cause. That's why salves and cutting fail. Dr. Leonard's Hem-Roid, a harmless tablet, succeeds, because it relieves this congestion and strengthens the affected parts. Hem-Roid has given quick, safe and lasting relief to thousands of Pile Sufferers. It will do the same for you or money back. Ward & Son and druggists everywhere sell Hem-Roid with this guarantee. Adv.
